The basic earning per share is Rs.-1.65. Previous year Rs.0.45. The Company incurred loss in Commodities trade carried out on National Spot Exchange Limited. The Company through its broker filed case with Economic Offense Wing of the Mumbai Police. The Directors hope the Company will recover the money.

MANAGEMENT DISCUSSION AND ANALYSIS (MD&A):**Global Economy:**

Global growth was subdued in the first half of FY 2013-14, as it witnessed some volatility in the emerging markets in response to the Federal Reserve's tapering. The global activity broadly strengthened during the second half of FY 2013-14 largely on account of recovery in the advanced economies notably the US. Economic expansion in the US was gaining firmer footing and would further aid recovery in global activity and trade. However, activity in many emerging market economies disappointed in a less favorable external financial environment, although they continued to contribute more than two-thirds of global growth. Their output growth is expected to be lifted by stronger exports to advanced economies and currency depreciation. However, tightening money policy and financial conditions in the event of faster than anticipated withdrawal of monetary accommodation by advanced economies

DOLAT INVESTMENTS LIMITED

could pose a risk to emerging markets. There are risks to activity from lower-than-expected inflation in advanced economies and geo-political risks. Overall, the balance of risks, while improved, remains on the downside.

The International Monetary Fund (IMF) in its World Economic Outlook has projected the global growth to strengthen from 3.00% in 2013 to 3.10% in 2014 and 3.90% in 2015. In advanced economies, growth is expected to increase to about 2.25% in 2014-15, an improvement of about 1.00% compared with 2013. Key drivers are a reduction in fiscal tightening except in Japan, and still highly accommodative monetary conditions. Growth will be helped by stronger external demand from advanced economies, but tighter financial conditions will dampen domestic demand growth.

Indian Economy

India's economic growth rate in the FY 2013-14 is estimated at 4.9%, a faster pace than the previous year (4.5% in FY 2012-13), mainly on improved performance in the agriculture and allied sectors. As per the Advance Estimates for FY 2013-14, the Central Statistical Office (CSO) has projected a growth rate of 4.6% in agricultural and allied sectors, up from 1.4% a year earlier. According to the CSO's advance estimates, growth in electricity, gas and water production is likely to improve to 6% in FY 2013-14 from 2.3% in FY 2012-13. Fiscal balances further improved with Government's fiscal deficit likely to fall to 4.6% of GDP in FY 2013-14 from 5.2% of GDP in FY 2012-13, this was marginally lower than the budgeted 4.8%. Fiscal deficit is projected to be at 4.1% of the GDP for the FY 2014-15. However, it is important to note that fiscal consolidation as envisaged is subject to risks; especially with respect to lower tax revenues if the economy does not grow on expected lines.

In response to the adjustment of rupee exchange rate, to disincentivising on gold imports and improvement in global trade India's Current Account Deficit (CAD) at US\$ 128 billion during April-February FY 2013-14 was 29% lower than that of US\$ 180 billion during the same period in FY 2012-13. The CAD-GDP ratio in Q3 of FY 2013-14 narrowed 0.9% from 6.5% in Q3 of FY 2012-13. CAD in FY 2013-14 is expected to be around 2% of GDP. The narrowing of CAD in FY 2013-14 is due to higher exports as well as moderation in imports. The exchange rate was relatively volatile during FY 2013-14 averaging Rs.60.50 per US\$ after touching an all time low of Rs.68.36 per US\$ on August 28, 2013. Foreign exchange reserves were US\$ 303.67 billion at the end of March 2014.

While the global environment remains challenging, policy action in India has rebuilt buffers to cushion it against possible spillovers from global economy. A moderate paced recovery is likely to shape in FY 2014-15 with support from rural demand, a pick-up exports and some turnaround in investment demand. Growth will also depend on the outcome of the general elections and the willingness of the next government at the centre to follow the reforms agenda which is essential both for a revival of the investment cycle and financing of our high deficits. Source: Advance Estimates by CSO and other print & electronic media.

Inflation:

The inflation indices showed a divergent trend during the FY 2013-14. The Wholesale Price Index (WPI) moderated over the course of the year while the Consumer Price Inflation (CPI) continued to remain stubbornly high during the first half of FY 2013-14, mainly due to high food inflation and upward revision in fuel prices. Risks also arose from rising cost of transport, education and health services. Inflation declined significantly from December 2013 onwards, both in terms of CPI and WPI, driven by falling food prices which had firmed up during April – November 2013. Despite moderation, CPI continued to remain high near 10% with inflation excluding food and fuel components also remaining

persistent at 8%. Non –food manufactured products WPI remained subdued due to output gap, though it increased in the latter half of FY 2013-14 due to cost push pressures. The annual rate of inflation, based on monthly WPI, stood at 5.70% (provisional) for the month of March 2014 over March 2013. The provisional annual inflation rate based on CPI for March 2014 was 8.31% as compared to 10.39% in March 2013.

Company's Financial Review

The Company has incurred a net loss after tax of Rs. 2899.54 Lacs for the year 2013–2014 as compared to a net profit of Rs.791.12 Lacs earned in the previous year 2012-13. The Company not received physical stock from National Spot Exchange, against which the company made the payment of Rs.4262.17 lacs as cost of purchase. Hence the said cost is written off as business loss while determining stock-in-trade as on 31.03.2014. Economic Offense Wing (EOW) of Mumbai Police is investigating the matter and the fraud committed on around 13000 investors. The Directors of the Company are hopeful of recovering the money, due to the company. The stable government in place will help the market sentiment and will help the company achieve better results in current year.

Resources & Liquidity

Company has deployed the surplus liquid resources, in units of Mutual Funds and Bank Deposits to earn dividend and interest and reinvested these funds in commodities market wherever it was considered appropriate, taking into account all relevant factors affecting the business.

Industry & Development

Growth in 2013 was 3.0% as against 3.1% in 2012. This growth was led primarily by the developed world with the US witnessing a stronger than expected growth. The Euro Zone continued with its sluggish growth but more importantly, the threat of a financial crisis receded significantly. However, the decision of the US Fed to end the Quantitative Easing led to significant volatility in the global markets, especially in the in emerging markets. This caused the Rupee to depreciate significantly in July and August of 2013. The Rupee went down to a low of Rs.68 to a USD before recovering back to levels of Rs.61-62 in the October – December period. Apart from effective intervention by the Reserve Bank of India (RBI), the improving current account deficit was a key factor behind the rebound of the Rupee.

Business Review

The performance of the company has been improved in the year under review, except in case of NSEL episode. The improved business strategy and plan of the Company enabled the company to achieve better results. The expected growth in the industry, with stable government at Centre, will really provide the opportunity to the Company to invest in selected high profile companies and opportunity in the commodities markets to further improve its performance in the years to come. On stability of the market conditions, the fund available with the Company will enable it to enter into the market in large scale, on appropriate time.

Your Company focuses on making investment/trading in such industry/products, which provides the company high revenue/gain as well as capital yield with cautious approach.

Opportunities & Challenges

Your Company, with its diversified portfolio of investments and trading strategy with available liquid funds was particularly well placed to benefits on improvement in the sentiment in market.

DOLAT INVESTMENTS LIMITED

Independent Auditors' Report to the Members of Dolat Investments Limited

Report on the financial statements

We have audited the accompanying financial statements of Dolat Investments Limited (the company), which comprise the balance sheet as at 31 March 2014, and the statement of profit and loss and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the company in accordance with the accounting principles generally accepted in India, including accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a. In the case of the balance sheet, of the state of affairs of the company as at 31 March 2014.
- b. In the case of the statement of profit and loss, of the loss for the year ended on that date, and
- c. In the case of the cash flow statement, of the cash flows for the year ended on that date.

Emphasis of Matter

Without qualifying our report we draw attention to

The Company has unsettled exposure for various commodities trade through NSEL/broker. As no physical stock is received from/through NSEL by the company, the cost/amount paid by company is written off as business loss while determining stock in trade as on 31.03.2014. Amount received by the company towards disputed transaction on platform of NSEL is offered as income and shown under income from operation. The detailed note on subject is given at note no 26 of Notes to Financial Statements for the year ended 31st March, 2014.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b. In our opinion proper books of account as required by law have been kept by the company so far as appears from our examination of those books.
 - c. The balance sheet, statement of profit and loss and cash flow statement dealt with by this report are in agreement with the books of account.
 - d. In our opinion, the balance sheet, statement of profit and loss, and cash flow statement comply with the accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956.
 - e. On the basis of written representations received from the directors as on 31 March 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

1. Corporate Information

Dolat Investments Ltd. (the company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on Bombay Stock Exchange Ltd. The company is engaged in the trading in shares, securities and the commodities through various stock/commodities exchanges.

2. Significant accounting policies

2.1 Basis of preparations

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respect with the accounting standards notified under the Companies (Accounting Standards) Rules 2006 (as amended) and the relevant provision of the Companies Act 1956. The financial statements have been prepared on an accrual basis and under the historical cost conventions. The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous year.

2.2 Use of Estimates:

The presentation of financial statements in conformity with the GAAP requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual result and estimates are recognized in the period in which the results are known / materialized.

2.3 Revenue Recognition:

- a) Income from Shares & Securities trading is recognized as income or loss on the date of actual trade and is shown net of brokerage expenses.
- b) Incomes in respect of derivative contracts are accounted in respect of expired contracts.
- c) In respect of derivative contracts open as on balance sheet date, treatment is given as per Guidance Note on Accounting for Equity Index and Equity/Stock Futures & Options issued by The Institute of Chartered Accountants of India.

Futures contracts: Amounts received or paid are credited or debited respectively to Mark to Market Margin account and anticipated losses are provided for in the Statement of Profit & Loss.

2.4 Fixed Assets and Depreciation:

- a) Tangible fixed assets are stated at cost less accumulated depreciation/impairment losses if any. Cost includes original cost of acquisition, including incidental expenses related to such acquisition and installation.
- b) Depreciation on tangible fixed assets is provided on written down value method at the rate specified in Schedule XIV to the Companies Act, 1956. Depreciation on addition to fixed assets is provided on pro-rata basis from the date the asset is put to use. Depreciation on sale/deduction from the fixed asset is provided for upto the date of sale/deduction as the case may be.

2.5 Impairment of Assets:

At each balance sheet date, the Company reviews the carrying value of tangible and intangible assets for any possible impairment. An impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price or estimated future cash flows.

2.6 Investments:

Investments are either classified as current or long term based on Managements intention at the time of purchase. Investments that are intended to be held for one year or more are classified as long term investments and investments that are intended to be held for less than one year are classified as current investments. Long term investments are carried at cost less provisions recorded to recognize any decline, other than temporary in the carrying value of each investment. Current investments are valued at the lower of cost and fair value of each investment individually.

2.7 Stock in trade

- a) The securities acquired with the intention of short term holding and trading are considered as stock-in-trade and shown under current assets.

DOLAT INVESTMENTS LIMITED

Significant accounting policies and notes to financial statements for the year ended 31 March, 2014

- b) Equity Shares held as stock-in-trade under current assets are valued at cost or market value, whichever is lower on FIFO basis.
- c) Commodities Stock held as stock-in-trade under current assets are valued at cost or market value, whichever is lower on FIFO basis.

2.8 Employee Benefits

- a) The Company provides for gratuity, a defined benefit plan covering all employees. The plan provides a lump sum payment to eligible employees at retirement or on termination of employment based on the salary of the respective employee and year of employment with the Company.

Liability for above defined benefit plan is provided on the basis of valuation, as at the Balance Sheet date, carried out by an independent actuary. The actuarial method used for measuring the liability is the projected unit credit method. The actuarial gains and losses arising during the year are recognized in the Statement of Profit & Loss of the year without resorting to any amortization.
